

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

- 1-22 (Canceled)
23. (New) A composition comprising:
- a) a polyolefin selected from the group consisting of polyethylene and polypropylene,
 - b) a polyorganosiloxane, and
 - c) an ester of a copolymer obtained from an α -olefin comprising between 10 and 24 carbon atoms and from an unsaturated dicarboxylic acid.
24. (New) The composition according to Claim 1, wherein the compound a) is a polyethylene wax.
25. (New) The composition according to Claim 23, wherein the compound a) is a polyethylene wax exhibiting a melting point of between 110 and 150°C, optionally of between 120 and 150°C.
26. (New) The composition according to one Claim 23, wherein the compound b) is a silicone oil exhibiting a viscosity at 20°C of between 100 and 1000 mPa.s.
27. (New) The composition according to Claim 23, comprising:
- x%=10 to 50% by weight of compound a), with respect to the total weight of the compounds a), b) and c) of the composition,
 - y%=10 to 50% by weight of compound c), with respect to the total weight

of the compounds a), b) and c) of the composition, and

$z\% = 100 - (x + y)\%$ by weight of compound b), with respect to the total weight of the compounds a), b) and c) of the composition.

28. (New) The composition according to Claim 27, wherein x is between 20 and 40% and y is between 20 and 40%.
29. (New) The composition according to Claim 23, further comprising a sizing composition.
30. (New) The composition according to Claim 23, being in the form of an emulsion in a liquid.
31. (New) The composition according to Claim 30, wherein the liquid is water.
32. (New) Yarns, fibres or filaments, treated with a composition as defined in Claim 23.
33. (New) The yarns, fibres or filaments according to Claim 32, being based on thermoplastic polymer.
34. (New) The yarns, fibres or filaments according to Claim 33, being based on polyester or on polyamide.
35. (New) The yarns, fibres or filaments according to Claim 32, wherein the composition present at the surface of the yarn represents between 1 and 5%, with respect to the weight of the yarn.
36. (New) The yarns, fibres or filaments according to Claim 23, wherein the yarns exhibit an overall count of between 700 and 2500 dtex.
37. (New) The yarns, fibres or filaments according to Claim 23, wherein the yarns

exhib a strand count of between 3 and 9 dtex.

38. (New) A process for the preparation of yarns, fibres or filaments as defined in Claim 32 comprising the following stages:
- 1) spinning the constituent material of the yarn,
 - 2) optionally drawing the yarn,
 - 3) optionally texturing the yarn, and
 - 4) treating the yarn is treated with a composition as defined in claim 23.
39. (New) The process according to Claim 38, wherein the material is a thermoplastic polymer and stage 1) is a melt spinning of the polymer.
40. (New) The process according to Claim 38, wherein the treatment stage 4) is carried out after stages 2) and 3).
41. (New) The process according to Claim 38, wherein the treatment stage 4) is carried out before stages 2) and 3).
42. (New) A rope, cable or line, wherein it comprises at least yarns, fibres or filaments according to Claim 32.
43. (New) A mooring or anchoring arrangements for boats, ships, floating landing stages, light pontoons, or anchor, navigation, climbing tool or marker buoys comprising a rope, cable or line as defined in Claim 42.
